Security Information

You are viewing a PDF document (or a print out of that document) that was generated by London School of Economics and Political Science and was downloaded by the individual named in the document from a website hosted at London School of Economics and Political Science https://verify.lse.ac.uk.

This PDF (or print) is **NOT** a secure document. It was created from the official document at time of production, but could have been tampered with since it was downloaded or printed.

Recommendation

The secure original document resides online at London School of Economics and Political Science. London School of Economics and Political Science provides a free and secure online service for recruiters and other third parties to verify the authenticity of official documents issued to its student and/or graduates. While this service allows students and graduates to control *who* sees their information, only authorised officials of London School of Economics and Political Science can create actual documents. This the most secure way to verify these documents.

To use the system, you should contact the student or graduate who provided you with this document, and ask them to log on to the student/graduate area at https://verify.lse.ac.uk and create a *Document Share* for you using the *secure email delivery* as the delivery method (they will need your email address for this). The *Document Share* is a generated URL linking back to a secure website at London School of Economics and Political Science (https://verify.lse.ac.uk). The Document Share URL will be delivered directly to you by certified email from London School of Economics and Political Science, so that you know the URL is legitimate.

When you visit the Document Share URL, you may be required to register with the system. Registration is free and straightforward, and may be required by the individual named in this document in order to restrict access to their document for Data Protection reasons. Once you are registered and logged in (or if no registration was required by the student/graduate), visiting the Document Share URL will cause the document to be verified online and you can be sure you are viewing the document as it was originally issued by London School of Economics and Political Science.

Data Protection

This document contains personal information about the individual named in it and may be subject to Data Protection laws in your jurisdiction. This information may only be used with the consent of the individual named in the document and for the purposes agreed with the individual. You may not distribute this information to a third party without the prior consent of the named person.

This page provides additional information on the above-named student's results. The tables below allow comparison of his performance with that of the cohort overall at both degree programme and course (module) levels.

The figures in bold indicate the classification and mark ranges applicable to the individual student.

Table 1: Distribution of classifications at degree programme level in 2019/20

BSc in Financial Mathematics and Statistics

First Class	Upper Second Class	Lower Second Class	Third Class	Pass Degree	Total Students*
22 (76%)	6 (21%)	0 (0%)	0 (0%)	0 (0%)	29

Table 2: Distribution of marks at course level**

Course	Year	70-100	60-69	50-59	40-49	Total Students*

The above performance data is accurate at the point of award.

* The total number of students includes students who did not successfully complete the degree programme/course. This number may, therefore, be greater than the sum of the preceding columns.

** These figures relate to students at a comparable level of study and exclude candidates who did not undertake or complete all elements of assessment.

Guide to course levels and grading:

Each course has been assigned to a level of undergraduate study as follows:

Level	Year
I	Year 1
II	Year 2
III	Year 3

The examiners for each course will determine a grade for each candidate as follows:

Mark	Grade	Classification
70-100	1	First Class
60-69	2A	Upper Second Class
50-59	2B	Lower Second Class
40-49	3	Third Class
0-39	F or CF	Fail or Condoned Fail
0	AB	Absent
0	I	Incomplete
0	NA	Not assessed this year
0-100	P*	Resit for failed course capped at Pass for the purpose of calculating the final overall degree classification

The distribution of grades for a number of programmes prior to 2007/8 differed to the above guide. Further information is available online at: lse.ac.uk/Transcripts.

Guide to grades for LSE100 - The LSE Course

All undergraduates from 2010-11 onwards take 'LSE100 - The LSE Course'.

LSE100 is an innovative course that introduces the fundamental elements of thinking like a social scientist by exploring some of the great intellectual debates of our time from the perspectives of different disciplines.

This course is assessed but does not count towards the final degree classification. Marks for LSE100 are non-numerical and are as follows:

Grade	Classification
DI	Completed with Distinction
M	Completed with Merit
P	Pass
F	Fail

The pass grade for LSE100 was formerly referred to as 'CR - Completed with Credit'.

Notes:

Information about individual programmes can be found in the School's Calendars. Calendars can be accessed online at lse.ac.uk/Calendar.

Please note that the School does not calculate students' GPA average and is unable to provide related information.
